**Subject:** thankyou

For the attention of Paul Daniels

Paul,

I just wanted to thankyou for your help in purchasing Labrador Automatic Transmissions.

I did try to purchase 2 other garages before this one and the other brokers I used didn't really help me that much, but you Scan business brokers were different, any information I needed was supplied to me promptly and you were always available to speak to me at any time.

As this was the first business I had purchased there was a lot of information and things I had to do that I didn't know about, and again you helped me out with things I needed to know and do, and reassured me when I was starting to stress out.

I found you and your team very professional at all times.

I know some of this may not sound like much but as I found out buying a business no matter how small and uncomplicated can really get to you and stress you out.

Once again thankyou

Regards

Mike staples;- new owner of Labrador Automatic Transmissions
